

Here are some other questions you may want to ask your cancer care team. You may download them here and take them with you to your doctor. These notes can help you remember what to ask during your next visit.

**About your diagnosis:**

1. What kind of breast cancer do I have?

---

---

---

---

2. What stage is my breast cancer and how does it affect my treatment plan?

---

---

---

---

3. How is early-stage breast cancer different from late-stage breast cancer?

---

---

---

---

4. Has my tumor been tested for HER2?

---

---

---

---

5. If so, is my cancer HER2-positive?

---

---

---

---

6. Is my cancer hormone receptor positive?

---

---

---

---

**About treatment:**

1. What are my treatment options?

---

---

---

---

2. Should I be on multiple therapies?

---

---

---

---

3. How long will I need to stay on these treatments?

---

---

---

---

4. How will I know this treatment is working?

---

---

---

---

5. What are the changes my cancer will come back after this treatment?

---

---

---

---

**About Herceptin:**

1. What should I do to be ready for my treatment?

---

---

---

---

2. How does my Herceptin treatment differ from chemotherapy?

---

---

---

---

3. How long do I need to be on Herceptin?

---

---

---

---

4. How will I know if the treatment is working?

---

---

---

---

5. What side effects can I expect to have?

---

---

---

---

6. What types of things can I do to help cope with any side effects that I may have during my treatment?

---

---

---

---

7. Are there any symptoms or problems I might have during my Herceptin treatment that I should immediately tell you about?

---

---

---

---

8. How often will my oncology nurse follow up with my oncologist about my Herceptin treatment and my progress?

---

---

---

---

9. How often will my heart be tested?

---

---

---

---
